# massiveGRID

## Full Stack Software Engineer - Internship

We are <u>MassiveGrid</u>, a global high-end Service Provider, with more than 15 years of hands-on experience in the fields of high-availability service hosting, turn-key service solution and development. Our services are designed for demanding clients that run Business-Critical Services or need high performance and large network capacity.

We are a team of passionate engineers that our extensive technical expertise and broad experience in problem solving allows us to provide high-quality customized telecoms & IT solutions to any technological challenge.

We are looking for a self-motivated student with enthusiasm and ability to develop technical skills on web development & design and discover his/her technical expertise career path.

**Your responsibilities will include:**
- Assist in Website, Portal and software application designing, building, or maintaining.
- Conferring with teams to resolve conflicts, prioritize needs, develop content criteria, or choose solutions.
- Maintaining an understanding of the latest Web applications and programming practices through education, study, and participation in conferences, workshops, and groups.
- Identifying problems uncovered by customer feedback and testing, and correcting or referring problems to appropriate personnel for correction.
- Evaluating code to ensure it meets industry standards, is valid, is properly structured, and is compatible with browsers, devices, or operating systems.
- Evaluating code in order to meet security standards.
- Partner with high skilled developers.
- Assist to track down and resolve technical issues.
- Help to identify and document trends to proactively prevent future problems.
- Sharing learning and innovations with day-to-day tasks.

**Knowledge & Skills:**
- Knowledge and experience in programming applications.
- Knowledge of at least one of the following programming languages ( C/C++, Java, Python, Go, NodeJS, C#, Elixir)
- Knowledge in JavaScript, HTML, CSS, PHP, MySQL, Git.
- Knowledge of programming language and technical terminology.
- Able to develop ideas and processes and clearly express them.
- Self motivated and a keen interest in personal development.
- Ability to thrive in a fast-paced environment.
- Energy, initiative, and a positive attitude.
- Teamwork spirit and strong communication skills.

**We Offer:**
- Fully remote options.
- Access to technical books, online courses and relevant educational resources.
- Being part of a workplace that offers continuous learning and development and incredible opportunities to upgrade your career.
