

Network Engineer

We are MassiveGrid, a global high-end Service Provider, with more than 15 years of hands-on experience in the fields of high-availability service hosting, turn-key service solution and development. Our services are designed for demanding clients that run Business-Critical Services or need high performance and large network capacity.

We are a team of passionate engineers that our extensive technical expertise and broad experience in problem solving allows us to provide high-quality customized telecoms & IT solutions to any technological challenge.

We are looking for a self-motivated student with enthusiasm and ability to develop technical skills and discover his/her technical expertise career path.

Your responsibilities will include:

- Assist to track down and resolve technical issues.
- Help to identify and document trends to proactively prevent future problems.
- Sharing learning and innovations with day-to-day tasks and our infrastructures.
- Partner with high skilled network engineers.

Knowledge & Skills:

- Understanding of network infrastructure and how different network components functions as parts of a whole.
- Familiarity with Windows & Linux servers is also a plus.
- Passion for network administration and a keen interest in personal development.
- Ability to diagnose and resolve basic technical issues.
- Energy, initiative, and a positive attitude.
- Teamwork spirit and strong communication skills.

We Offer:

- Fully remote options.
- Access to books, online courses and relevant educational resources.
- Being part of a workplace that offers continuous learning and development and incredible opportunities to upgrade your career.
